FORMULARY BENEFITS DATA CONSENT FORM

Formulary Benefits data are maintained for health insurance providers by organizations known as Pharmacy Benefits Managers (PBM). PBM's are third party administrators or prescription drug programs whose primary responsibilities are processing and paying prescription drug claims. They also develop and maintain formularies, which are lists of dispensable drugs covered by a particular drug benefit plan.

By signing below, I give permission to **Hamilton Gastroenterology Group** to access my pharmacy benefits data electronically.

This consent will enable **Hamilton Gastroenterology Group**:

- Determine the pharmacy benefits and drug copays for a patient's health plan.
- Check whether a prescribed medication is covered (in formulary) under a patient's plan.
- Display therapeutic alternatives with preference rank (if available) within a drug class for non-formulary medications.
- Determine if a patient's health plan allows electronic prescribing to Mail Order pharmacies, and if so, e-prescribe to these pharmacies.
- Download historic list of all medications prescribed by any provider.
- In summary, we ask your permission to obtain formulary information, and information about other prescriptions prescribed by other providers.
